Title Index

A complete information index for measuring the proportionality of electoral systems, 101
A counter evidence for the Lazear–Moore findings: an empirical study of incentive part in the wage structure in Japan, 377
A frontier approach to disequilibrium models, 699
A microstructural analysis of the exchange rate expectation formation process, 537
A modified matrix for policy analysis on production diversification for Thai agriculture, 215
A non-nested test of GARCH verses EGARCH models, 765
A note on beta forecasting, 77
A note on the bid–ask spread for dollars in Kuwait: a brief note, 715
A note on the efficiency of financial markets in a developing country, 109
A note on the impact of the United States federal budget deficit on the intermediate–term interest rate, 1960–94, 711
A note on the rate of return to investment in education in Belgium, 167
A real options approach to investment in factor demand models, 153
A simple method for controlling for compositional effects in the measurement of poverty, 37
A simple method to test the Fisher effect, 477
A simple necessary condition for negativity in the almost ideal demand system with the Stone price index, 97
A test of the public choice theory of economic sanctions, 729
A test of wage leadership hypothesis in Turkish manufacturing industry, 219
Absenteeism and HIV infection, 275
Access to health care and current health status: do physicians matter?
An empirical note on inequality in the world development indicators, 145
Another look at long–run purchasing power parity using Sims tests for unit roots, 473
Applying the RESET test in allocation models: a cautionary note, 359
Are budget deficits inflationary? A cointegration approach, 493
Are Chinese stock markets efficient? A cointegration and causality analysis, 511
Are Greek smokers rational addicts?, 401
Are there asymmetries in UK consumption? A closer look, 241
Bank exposures to interest rate risk: the case of the Australian banking industry, 737
Beta stability and monthly seasonal effects: evidence from the Australian capital market, 563

Calculating marginal effects in dichotomous–continuous models, 181
Capital requirements on over the counter options, 657
Causality between the measured and underground economic New Zealand, 63
Causality between the minimum wage and other wages, 507
Cigarette consumption in Greece: empirical evidence from cointegration analysis, 571
Cointegration analysis of the inverted Fisher effect: evidence from Belgium, France and Germany, 257
Cointegration, error correction and Granger causality: an application with Latin American stock markets, 469
Combining information in exchange rate forecasting: Evidence from the EMS, 441
Comparative advantage in the Middle East and North Africa, 33
Competition between employed and unemployed job searchers: is there a difference between the UK and the Netherlands?, 199
Cost structure in college and university student health centres: comment, 623
Currency substitution and indexed money, 163

Decomposition of Gini coefficients by income factors: a new approach and application, 27
Defence spending and growth in Greece: a comment and further empirical evidence, 651
Demand for nutrition vs. demand for tastes, 291
Demand for religion in the British Isles, 79
Determinants of farmland prices in the north–eastern United States: a cointegration analysis, 211
Determinants of global portfolio composition, 503
Devaluation and trade balance: estimating the long run effect, 343
Distributional properties and weekly return patterns of the Athens stock exchange, 769
Do estimable relations exist between size and efficiency of institutions and productivity growth? An exercise in the spirit of D.C. North, 431
Do short term interest rates influence long term interest rates? Empirical evidence from some EMS countries, 449

Does information efficiency require a perception of information inefficiency?, 615
Does the Chinese official CPI underestimate inflation?, 301
Duration and mobility of young male workers in a segmented labour market, 173
Dynamic linkages and Granger causality between short–term U.S. corporate bond and stock markets, 89

Economic analysis of crime and punishment: an Asian case, 261
Economic forecasts by industry type: comparisons and statistical tests, 415
Effects of devaluation on income distribution, 321
Effects of exchange–rate variability on inflation variability: some additional evidence, 453
Efficiency in gambling markets involving spread: a corrected and simplified test, 93
Energy consumption and economic growth in Brazil, Mexico and Venezuela: a time series analysis, 671
Estimating the allocative inefficiency in the prescription drug industry, 419
Evidence from lesser developed countries on the Fisher hypothesis: a cointegration analysis, 683
Evidence on the effect of young adults' wages on their college attendance, 733
Exchange rate instability: some empirical tests of temporal dynamics, 547
Explaining stationary variables with non–stationary regressors, 69
Export volume, exchange rates and global economic growth: the Indian experience, 425

Fast spatial estimation, 337
Festive verses seasonal effects in consumption: a note, 407
Financial market liberalization and the relationship between stock return and financial leverage in Finland, 19
Financing divided governments, 369
Finite sample performance of Schmidt–Phillips unit root tests, 129
Football league transfers: a comparison of negotiated fees with arbitration settlements, 41
Forward/forward volatilities and the term structure of implied volatility, 325

Generalized method of moment estimation of truncated or censored regression, 365
GMM estimation of currency substitution in a high inflation economy: evidence from Turkey, 225
Growth empirics: evidence from a panel of annual data, 347
Growth in US housing starts, real consumer debt, real GDP and the long-term real interest rate: a vector cointegration analysis, 757

Handicaps, outcome uncertainty and attendance demand, 567
Hirschman–Herfindahl index determination under incomplete information, 639
How stable is the relationship between US petroleum imports and economic growth, 551
Human capital and economic growth in Japan: an application of time series analysis, 393
Human capital formation and US economic growth: a causality analysis, 329
Hypothetical versus real willingness to pay: some experimental results, 149

Impact of lawyer advertising on the image of lawyers in the United States, 675
Incidence of tariff: the case of India 1982–93, 583
Income and price elasticities of demand for alcoholic drinks, 247
Income sources and declared charitable tax deductions, 271
Increasing returns to information: evidence from the Hong Kong movie market, 287
Institutional change and invariance of behaviour in Major League Baseball, 311
Institutional macroeconomic forecasting performance of the UK economy, 373
Integration and causality in US mortgage and T–Bond markets, 445
Inter–day return behaviour for stocks quoted 'back to back' in Hong Kong, 459
International diversification and oil price risk, 587
International evidence on the sustainability of budget deficits, 775
International R&D spillovers amongst OECD economies, 315
Is Beta dead? The role of alternative estimation methods, 559

Japanese transfer pricing policy: a note, 13

Life cycle theory and the impact of the rate of economic growth on saving, 661
Long–run purchasing power parity and long–term memory: evidence from Asian newly industrialised countries, 575
Long–term unemployment and US state wages, 465

Macro economic implications of search theory for the labour market, 719
Macro–monetary effects on agricultural prices: the case of Greek agriculture, 397
Margin requirements and stock market volatility in Thailand, 83
Marital instability and business start–up rates, 333
Match attendance at Euro 96: was the crowd waving or drowning? 555
Measures of probability changes in binary choice models: a comparative study, 761
Measuring discrimination by decomposing earnings functions, 117

Modelling the Spanish imports of vehicles using a source differential demand system, 751
Movie admissions and rental income: the case of James Bond, 57

Neoclassical and collective rationality in household labour supply, 529
New agricultural technology, timeliness and wages for labour: a longitudinal study of rural wages in India, 267
New evidence on the effect of human capital on economic growth, 121
Non–wage labour costs and employment: a note on some Canadian evidence from the 1970s, 487
Nonlinear dependence and conditional heteroscedasticity in stock returns: UK evidence, 647
Nonlinear dependence in British pound exchange rates, 631

Obesity and heart disease awareness: a note on the impact of consumer characteristics using qualitative choice analysis, 229
Occupational differences and the relative wages of married and single young men, 591
On testing Kusnet's economic growth hypothesis, 409
On the disparate evidence on trend stationarity in inflation rates: a reappraisal, 305

Political instability and country risk: new evidence, 703
Population and economic growth: a cointegration analysis of lesser developed countries, 665
Portfolio managers versus the darts: evidence from the Wall Street Journal's Dartboard Column, 635
Poverty, excess sensitivity and the permanent income hypothesis: evidence from a developing country, 521
Precautionary saving and the Deaton paradox, 187
Predicting wages from transformed wage equations, 709
Productivity shocks and business fixed investment, 679
Public perceptions of the relative seriousness of inflation and unemployment in the United States, 49

Rent-sharing or incentives? Estimating the residual claim of average employees, 725

Some further experimental results on hypothetical verses real willingness to pay, 535
Some international evidence on the 'equity premium', 599
Specification issues in the modelling of union status determination, 481
Spending and revenues in Greece: new evidence from error correction modelling, 387
Stochastic efficiency measurement: a new approach, 125
Stock returns in emerging markets: a common trend analysis, 105

Tax then spend or spend then tax? Experience in the UK, 1961–93, 237
Technology and librarianship: a test of the human capital model of occupational segregation, 403
Testing alternative dynamic specifications: an application to meat demand in Belgium, 745
Testing for boy–girl discrimination with household expenditure data: results for Papua New Guinea, 643
Testing for business cycle asymmetry: some international evidence, 603
Testing purchasing power parity in the presence of transaction costs, 611
Testing the random walk hypothesis: evidence for the Budapest stock exchange, 627
Tests of the Lucas supply curve with price expectational data, 195
The Canadian earnings functions under test, 133
The causality between fertility and female labour force participation in Japan, 113
The changing gender wage gap in Korea, 579
The evidence on international output–inflation trade–offs: an evaluation, 233
The hidden economy and tax–evasion prosecutions in New Zealand, 281
The implications of cointegration in financial markets: a comment, 141
The no–arbitrage condition and financial markets with heterogeneous and costly information, 159
The paper–bill spread and Blanchard's version of Okun's Law, 437
The pattern of non-union wage supplements: a switching regression approach, 741
The quality of life: an international comparison based on ordinal measures, 411
The roles of diffusion of advance technology and capital deepening in economic growth: a cross–country study, 497
The size anomaly on the Taiwan Stock Exchange, 7
The tax–spend debate: the case of Canada, 381
The trade balance and the real exchange rate: the US evidence from 1973:3 to 1994:9, 517
The trading month anomaly in the Financial Times Industrial Ordinary Shares Index: 1935–1994, 297
The value of life extension and the marginal rate of time preference: a pilot study, 53
Tobit analysis with a natural response rate, 191
Total factor productivity growth in Singapore's manufacturing industries, 525
Trade Union Congress Policy towards union mergers: a statistical analysis, 1960–83, 353
Trade union membership density: the case of the AUT, 541
Trading patterns of small and large traders: implications for the weekend effect in Finland, 595
Two common problems related to the use of the Armington aggregator in computable general equilibrium models, 23

UK investment trusts: performance, timing and selectivity, 207
Unemployment fluctuations in the UK: 1958–1992, 253

Welfare and the family size decision of low–income, two–parent families, 607
Which level of schooling has the greatest economic impact on output, 177
White noise and other experiments on augmented Dickey Fuller tests, 689
Why workers queue for local government jobs: the US evidence, 1
Willingness to pay for rBST–free milk: a two–limit Tobit model analysis, 619

Yield spreads as predictors of recessions in a core European economic area, 695

Zipf and the size of firms, 205
